

VENUSVIVA

REDUCE SIGNS
OF SKIN DAMAGE

Introducing

VENUS VIVA™

Skin Resurfacing & Wrinkle Reduction

Venus Viva™ is an advanced, non surgical solution for skin resurfacing. It combines NanoFractional Radio Frequency and Smartscan™ technology to reduce the appearance of acne scars and other scars, stretch marks, rosacea, enlarged pores, deep wrinkles, and uneven skin texture and pigmentation. It also includes DiamondPolar™ applicator, which works to reduce fine lines and wrinkles.

what to

EXPECT

Skin resurfacing treatments typically vary between 3-4 sessions, every 4-6 weeks. For wrinkle reduction treatments, most patients receive 6-8 treatments per area, with each session lasting 15 to 30 minutes. The exact number of sessions depends on the individual.

rapid

RECOVERY

For skin resurfacing treatments, you will experience mild redness post-treatment, and you can resume your regular skin care and makeup routine 24 hours after treatment. For wrinkle reduction treatments, there is no downtime.

safe for

ALL SKIN TONES

Treatments use radio frequency technology, which is proven to be safe and effective for all skin tones. Ask your doctor if Venus Viva™ is right for you.

What Venus Viva™ Can Do

FOR YOU

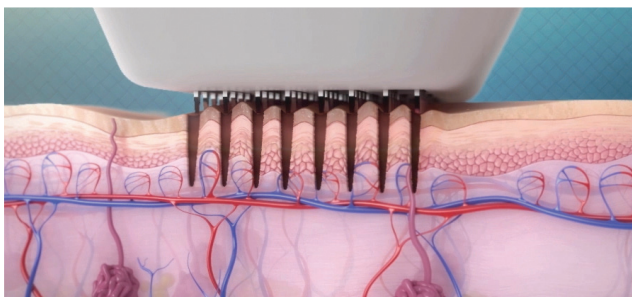

- acne scars & rosacea
- stretch marks & pigmentation
- enlarged pores & deep wrinkles
- dyschromia (discoloration)
- uneven skin texture

How It

WORKS

Skin Resurfacing

Venus Viva™ skin resurfacing treatments work with tiny pins that safely deliver heat (via NanoFractional Radio Frequency) through the skin's surface. This creates tiny micro-dermal wounds, which the body then works to heal naturally. This process repairs signs of skin damage seen on the surface of the skin. Since the wounds are so small, the treatment is much more comfortable than traditional CO2 lasers and produces satisfying results.

Wrinkle Reduction

Venus Viva™ wrinkle reduction treatments with the DiamondPolar™ applicator are powered by patented (MP)2 technology that produces uniform heat under the skin's surface. This process helps to naturally increase collagen and elastin fibers, which results in smoother, firmer skin that looks noticeably more youthful.

Why Venus Viva™ Is Right

FOR YOU

High Patient Satisfaction

A clinical study showed that majority of patients rated the comfort, recovery time, and results of Venus Viva™ treatments as “Excellent” and would recommend it to their friends.¹

Safe and Effective for All Skin Tones

Most skin resurfacing treatments are not safe for darker skin tones. Venus Viva™ is safe for all ethnicities, even for darker complexions.

Low to No Downtime

Return to your daily skin care routine 24 hours after skin resurfacing treatments. No downtime for wrinkle reduction treatments
